

Coherent Technical Services, Inc.

Excellence in technical services

Position Title:

Graphic Artist – Summer Internship

Job Description:

The candidate must be able to generate skillful hand sketches of designs based on concept or design requirements provided in written or verbal format. Must be able to capture or translate hand-generated artwork into computer graphic format. Candidate will coordinate editorial illustrations and creative artwork for publications such as briefs, brochures, handbooks, and posters. Candidate will translate facts and features of subject material into graphic terms that best convey intended meaning. Develops interpretive themes that convey ideas and information. Creates graphic presentations that communicate mood, emphasis, insight, viewpoint, and similar visual impressions. In addition, provides guidance on graphic technology. Works closely with internal company contacts to understand requirements and create cost efficient graphic designs through available mediums. May provide computer graphic services for web artwork. Also may have responsibility for input on reproduction and printing processes through in-house resources or outside vendors.

Education:

Must be enrolled in a college level graphics artist program.

Experience:

Present a small portfolio of previous artwork
