

**Position Title:**

Information Assurance Analyst

**Job Description:**

Responsible for reviewing security policies and procedures as they pertain to the DIACAP and DITSCAP process. Will be reviewing and writing SSAA and will be responsible for Certification & Accreditation for military systems.

Participate in technical specification change discussions, risk and cost-benefit analysis, Program Protection/Anti-Tamper coordination, cross-Integrated Product Team (IPT) collaboration, and ensure IA is practiced and documented consistently throughout the program.

Current working knowledge of DOD/DON/NAVAIR IA processes. Ability to research DOD and DON policies/guidance to provide information to the IA Team or develop briefing material to provide information to program stakeholders. Ability to communicate effectively, orally and in writing, to maintain effective working relationships and provide technical guidance.

**Education:**

Candidates must possess a BS degree in Information Technology with a focus on security engineering.

**Experience:**

Candidates must have experience with working in a government DoD environment. Must have 3+ years experience working with DITSCAP or recent DIACAP experience. Must have the ability to obtain a DoD Security Clearance (preferred if already possessed). Must have reviewed, test, and written SSAA in compliance for DIACAP.
